BACCO MOUNTAIN — A ribbon-cutting ceremony was held

Wednesday to mark completion of a Dickinson County road construction project.

The warm-mix asphalt is used for

and makes everyday life easier for residents.

PROJECT SAVINGS

Construction costs lowered 40 percent of lane closures

500 fewer gallons of heating oil estimated savings

20 fewer days of use of non-structural materials

method — the work would have required double the number of days with added lane closures.

For this project, a small amount of new warm-mix asphalt was utilized for the base.

The warm-mix asphalt does not require as much fuel burning as the traditional hot asphalt, and it also reduces workers' exposure to fumes, odors and fumes.

Along with the asphalt work, other miscellaneous forms, such as gravel shoveling, paving and

The total cost of the project, a joint effort between the road commission and the city of Kingsford, was $790,000.

Costs for engineering, ordering and pavement mark-

ing from individual growers would not impact patients or their caregivers. It will also provide a tax of 10 percent on their gross retail income, in addition to a percent tax on their gross retail income, in addition to a 10 percent tax on their gross retail income, in addition to a 10 percent tax on their gross retail income.

Project coordinators estimated that — had it been completed with the standard materials.

The project was 80 percent complete with the standard materials.
